Re: Informational Hearing on the Continuation of Emergency Declarations and Limited Executive Orders

From: Carol Reimers

I am writing to urge the General Assembly to support the Continuation of Emergency Declarations and Limited Executive Orders. While there may be signs of some easing of COVID-19 cases, the citizens of Connecticut need to know that they do not have to fear for their health when they participate in daily life in Connecticut.

CDC Guidelines and health professionals offer assistance in making the decisions regarding emergency declarations and limited executive orders. I ask the legislature to keep the safety of Connecticut citizens foremost and not make these decisions on political biases.

Thank you.
